

POLYSPLASH™

FLEXIBLE SLIP RESISTANT AQUATIC SURFACING

Introducing PolySplash... FlexGround's latest innovation. PolySplash is the most durable, chlorine resistant and UV stable flexible surfacing on the market - a perfect blend between aesthetics and structure. It can be installed over concrete, asphalt, non-coated wood, patterned raw metal, rubber, foam and many other surfaces.

The PolySplash Advantage:

- Easy Install
- Non-porous
- Slip Resistant
- Extremely Durable
- Many Color Choices
- Resistant to Rotting, Cracking and Peeling
- Anti-microbial
- Soft and Flexible Rubber Feel
