FlexGround Surfacing to expand to Eastern and Midwestern States

Flexground surfacing is a premium supplier and proven installer of safety surfacing in the western portion of the US and is now expanding its services east.

Tempe, AZ — February 15, 2022— With a combined total of over 50 years of surfacing experience, FlexGround Surfacing is expanding its serviced territories across the US. The service extension will include full-service surfacing installations and maintenance for all safety surfacing options. FlexGround's existing territories will continue to be serviced with the professionalism and competitive pricing for which the company has been known to provide.

The company, which was established in Arizona in 2010, is proud to provide the highest quality IPEMA certified systems installed only by our experienced and professional installation crews. FlexGround's broad product line meets all necessary surfacing needs for play and recreational spaces and is offered in a wide variety of colors for designable innovations and added play value.

Flexground East is looking for partners in key geographical areas. Offering unparalleled customer service, the company is currently providing quotes for the coming season. Tom Discipio, new VP of Operations located in the Buffalo, NY office said, "Helping customers generate more business by relationship building is a historically proven key to success. If you are looking for the best strategies to grow your surfacing options, we are eager to assist. Let us help you expand your surfacing product lines with ease and professionalism, one project at a time."

For quotes and general sales information, contact Deanna Raichel at deanna.raichel@flexground.com or 716-652-2025. For installation questions and general construction inquiries, contact Ron Kryzstof at ron.kryzstof@flexground.com or 716-374-2489. The team at FlexGround East looks forward to exceeding your expectations.
